household appliances, clothing, shoes,
interior items and additional accessories.

Materials and textures

We produce furniture in accordance with European standards and Russian GOSTs:

- GOST 16371-2014 Furniture. General specifications;
- GOST 19917-2014 Furniture for seating and lying. General technical specifications;
- TP TC 025/2012 Technical regulations of the Eurasian Economic Union (EEU) «On the safety of furniture products».

We use laminated chipboard from leading manufacturers with formaldehyde emission class E1. The formaldehyde emission class is the main safety criteria for chipboard. E1 class is accepted in European countries and ensures the safety of furniture for consumers

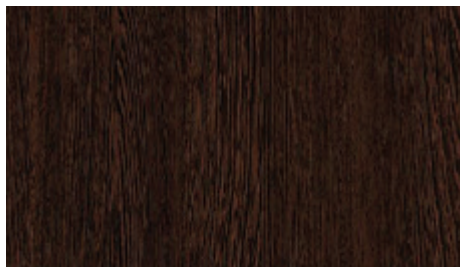

ATTENTION!

The color and texture of the furniture may differ from the images in this catalog.

OFFICE FURNITURE

MANAGER'S OFFICE

56

The manager's office was made on the basis of the KST-109 head's office desk.

The head's office, which consists of: desk **KST-109**, a console desk **SPR-02** for negotiations, a cabinet for documents **KT-12** and two racks **ST-1**. This solution allows you to ergonomically organize a place for the manager to work and receive visitors. Functional cabinets and shelvings solve the eternal problem for places of storage of documentation and business literature.

Wenge/Bleached Oak

MODULAR HALLWAY KITS

HOW TO CHOOSE HALLWAY FURNITURE

We offer our customers more than 20 universal kits of hallways based on the modular principle.

A module is a separate piece of furniture, for example, a wardrobe, a mirror, a shoe cabinet and others. The module can be used independently in the furnishing

of your home, apartment, office. All elements – cabinets, hangers, cabinets, mirrors are presented on the previous pages of the catalog. The kits are divided into groups according to a certain width. We offer kits of hallways with a width of:

60 cm, 90 cm, 120 cm, 150 cm, 180 cm, 210 cm, 240 cm

HOW TO CHOOSE HALLWAY

Based on the size of your place you can:

A. Choose a kit from this section of the catalog in accordance with the required size, functionality and color.

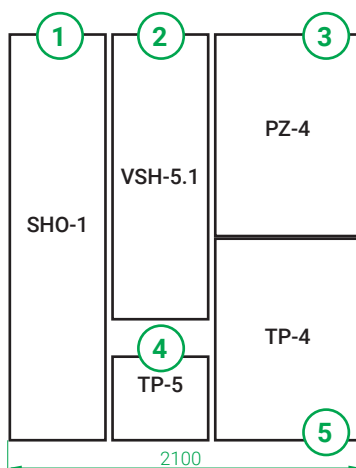

B. Consider the modules that make up your chosen kit in the previous sections, where images, descriptions and color solutions for all manufactured elements are presented: cabinets, hangers, cabinets, etc.

In the description of the set of furniture for the hallway are presented (for example, set 21):
